

HOME EQUITY TURBO + EQUITY PROTECTION PROGRAM

Together you and your borrowers can experience:

Home Equity Turbo

- Digital solution that gathers application data with a user-friendly, accessible interface and supplements it with an AVM, soft credit pull and VOE/VOI
- White-labeled and delivered through your website
- Improves loan operational efficiencies and reduces cycle times allowing HELOCS to close in days not weeks, enhancing the lending experience

Equity Protection Program

- Risk transfer solution that eliminates charge offs on home equity and unsecured home improvement loans; no foreclosure required, eliminates REO expenses
- Delegated underwriting that prudently expands the 'Buy Box' to increase distribution and safely grow consumer revenue
- Customizable to meet a lender's specific needs and lending goals

The Combination

- Lenders can successfully scale their home equity volume and workflows to grow net interest income, while simultaneously mitigating credit risk
- Enhances the home equity lending program by providing a safe expedient method of growing revenue while eliminating losses
- Efficiencies include higher pull thru ratios based on broader 'insured' eligibility & reduced processing cycle times, driving down overall cost per loan
